

KICK-START YOUR CHILD'S SUCCESS

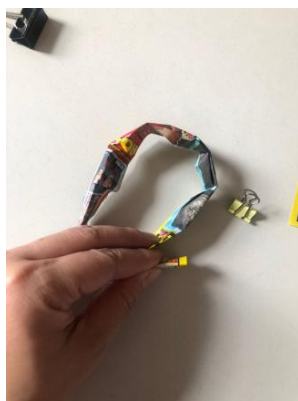

Activity 2: Quoits

Materials: recycled papers: magazines/leaflets, sticky tape, clips, glass bottles

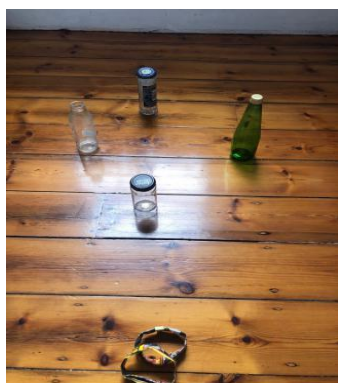

Steps:

1. To make the paper rings you will need to collect some recycled paper and roll them into rings. Then use sticky tape or clips to put both ends together. You can decide how wide or narrow you want the rings to be, and make as many as you desire (see the pictures)

2. Spread the glass bottles on the floor. If you would like to make it challenging try setting up lines. Check out the video

Activity created by Abby Liu
